

ANSELL'S SURGICAL SMART PACK™ TAKES LESS FROM THE PLANET

Our compact and user-friendly SMART Pack™ just got SMARTer for the planet – with all packaging elements, from carton to inner wrap, now recyclable*.

1 COMPACT CARTON/CASE

Made of
70% recycled cardboard.

2 USER-FRIENDLY DISPENSER

Made of
90% recycled cardboard.

3 COMPACT POLY-POUCH

Printed using a combination of environmentally-friendly **non-toxic water-based ink** that does not contain any lead, heavy metals, or ozone depleting chemicals.

Top: HDPE plastic (white)

Bottom: LDPE plastic (clear)

Made using a combination of **high density polyethylene (HDPE) and low density polyethylene (LDPE) thermoplastic***. HDPE and LDPE are known for their high recyclability, durability, as well as their weather and chemical resistance.

*Note: The bottom web of our poly-pouch is in a transition phase to being recyclable across all Ansell surgical products. Poly-pouches that have the recycling logo can be recycled.**

***Always check your local recyclable status of HDPE and LDPE as these plastic materials may not be considered suitable for recycling in your country.**

4 PROTECTIVE INNER WRAP

Made of **medical grade paper** to meet bioburden controls as specified by ISO standards.

Printed using environmentally-friendly **non-toxic water-based ink** that does not contain any lead, heavy materials, or ozone depleting chemicals.
