

ANSELL LIMITED RELEASES 2020 SUSTAINABILITY REPORT

October 2020 Ansell Limited, a global leader in personal protection solutions, has released its 2020 Sustainability Report, which details the Company's approach to sustainability and how it integrates Environmental, Social and Governance (ESG) priorities into its three focus areas of '**Better Society, Better Environment, Better Business.**'

"The expectations of our stakeholders for transparent reporting of ESG practices continues to rise," said Magnus Nicolin, Managing Director and CEO. "We have made significant improvements in our operations, of which I am very proud, and we know it will take even more. In the last year we have effectively driven improvements in many areas, from how we will continue to maintain safe operations during COVID-19, create a more sustainable approach to product conception through end of life, and how we engage with our suppliers. We are committed to communicating both our successes and challenges to all our stakeholders."

Key actions in this year's report include maintaining world class employee safety rates, completion of a modern slavery risk assessment, reimbursement of recruitment fees paid by migrant workers, and continued work on climate-related risks.
