

## Electrical Insulating Gloves Class 0 - RIG014R

Durable electrical protection gloves, ensuring safety and everyday usability

Previously known as: E185

Electrical

Light Duty

## Flexible, durable electrical safety gloves, delivering comfortable, fitted protection\*

- **Heightened durability and flexibility:** ActivArm<sup>®</sup> Electrical Insulating Gloves Class 0 - RIG014R are made from latex (using an eco-conscious dipping process), ensuring flexibility and durability
- **Advanced ergonomics:** Non-splayed fingers and a hand-at-rest shape limit hand fatigue
- **Elevated comfort:** These electrical safety gloves' flared cuff ensures space for clothing and ventilation
- **Increased practicality:** A smooth finish enables easy donning and doffing
- **Specialized defenses:** Arc flash certified (APC 1 in combination with 96-002 leather gloves), these acid-resistant\* gloves can also withstand ozone\*\*, very low temperatures\*\*\* and tolerate a touch voltage AC maximum of 1000 V (DC maximum 1500)
- **Certified protection:** As electrical PPE, they also adhere to CSA, NFPA and OSHA standards  
\*EN Category A  
\*\*EN Category Z  
\*\*\*EN Category C

### Industries

- Automotive
- Electrical
- Construction
- Mining
- Machinery and Equipment

### Applications

- Applications with risk of touch voltage
- Electrical Contractors
- Hybrid engine manufacturing and repair
- Maintenance Repairs and Operations in all industrial environments (MRO)
- Mass Transit Repair and Maintenance
- Power maintenance, repair & transmission
- Telecom repair near electrical wires
