

## Lightweight, comfortable chemical gloves, with advanced inner absorption capabilities

- **Enhanced absorption:** AlphaTec® 79-700 PPE gloves' AQUADRI™ Moisture Management Technology allows them to absorb up to 10x more than gloves with mere cotton flocking, for hands that stay drier for longer
- **Specialized protection:** Their robust nitrile composition provides light protection against chemicals, acids, grease and liquids, with EN 374 Type B chemical resistance
- **Augmented dexterity:** These AlphaTec® gloves also have a lightweight design, granting them greater dexterity and flexibility
- **Food handling compliance:** They possess European certification for food handling, making them ideal for food processing applications
- **Elevated comfort:** Their absorption capabilities and lightweight design also grant these industrial gloves all-round comfort

### Industries

- Food Processing
- Janitorial / Sanitation
- Construction
- Automotive
- Metal fabrication
- Transportation

### Applications

- Engine transmission and repair
- Painting or cleaning tools or robots
- All food processing applications that have food contact
- Light assembly tasks
- Handling dry, wet or oily large objects
- Oil, fluids and filter change

Previously known as: Virtex™ 79-700

### Key Features

- **AQUADRI™ Moisture Management:** Up to 10x greater internal absorption\*
- **Robust nitrile composition:** EN 374 Type B chemical protection ensured
- **Lightweight design:** For enhanced dexterity, flexibility and comfort  
\*when compared with similar chemical gloves lacking this feature
