

66-663 Coat

NFPA 1990 (NFPA 1992) certified coat is breathable, re-usable and chemical-splash-resistant.

NFPA 1990 (NFPA 1992) certified, liquid-chemical splash resistant coat providing outstanding comfort and durability.

AlphaTec® 6666x series coat is made of polyester based fabric containing a breathable membrane. It offers exceptional liquid chemical splash protection, while also helping to manage heat stress by allowing body heat to disperse through the fabric. The worker is protected and comfortable throughout a full shift.

Design features include:

- Raglan sleeves, designed for comfortable arm movement
- Adjustable hook and loop closure straps at the wrist, and front flap for a snug fit
- Double front zipper flap for a secure seal
- Heavy duty zipper
- Front device tab
- Optional detachable hood (66-664) which is attached to the collar by means of a hook and loop fastenings

Industries

- Chemical
- Food Processing
- Mining
- Maintenance
- Metal fabrication

Applications

- Plant disinfection and sanitization
- Chemical Handling
- Repair and maintenance
- Oil Platforms
- Mining
- Metal Plating
- Food Processing
- Sanitation
- Utilities
- Pulp and Paper Production
- Water plants
- Energy
- Transport of hazardous substances

KEY FEATURES & BENEFITS

- Chemical splash fabric provides protection with penetration data for more than 70 chemicals
- Breathable fabric maximizes comfort, reducing the risk of heat stress and increasing productivity
- Sealed seams and double front storm flap ensure the whole garment offers leak-tight protection from chemical spray
- Heavy duty zipper
- Hook-and-loop fastenings at cuffs
- Durable laminated fabric system is machine washable for longer, cost-effective service life
- Certified according to NFPA 1990 (NFPA 1992)
