

## MICRO-TOUCH® NITRA-TEX™ E.P.

High Risk

# Nitrile, powder-free medical exam glove with strong barrier protection

- Comfortable fit: This non-sterile glove is made from a softer synthetic formulation to offer a comfortable fit and feel
- Chemical barrier protection: It also has an excellent resistance to a broad range of commonly used chemicals
- **High durability:** High tear resistance ensures optimal protection, and a chlorinated inner coating facilitates ease of donning
- Reduced allergy risk: These nitrile gloves protect from latex Type I allergies
- Specialized protection: Tested and approved for use with chemotherapy drugs\*

#### Recommended For

- Extra protection over the wrist and arm
- Sustained, high-risk examination procedures
- Environmentally friendly facilities
- Tested for use with chemotherapy drugs
- Protection from Type I latex allergy in HCW's or patients

#### FEATURED TECHNOLOGIES

### MICRO-TOUCH® Everyday, Everywhere Protection

MICRO-TOUCH® premium medical examination gloves are scientifically designed to complement every need of medical professionals. Sophisticated design features include Ansell ergonomic technologies that ensure comfort during extended procedures, wet grip innovations that prevent harmful mishandling, and micro-thin films for maximum sensitivity. Caregivers who are fully prepared and comfortably protected by versatile MICRO-TOUCH styles have the peace of mind to focus on what matters most: the health and protection of themselves and their patients.
