

Previously known as: Hylite™

Oil

Medium Duty

Three quarter-dipped nitrile-coated work gloves, for a robust alternative to cotton, light leather or PVC gloves

- **Assured protection:** ActivArmr® 47-400 protective gloves feature three quarter-dipped nitrile coating, ensuring mechanical protection, abrasion resistance, oil repellency and flexibility
- **Enhanced durability:** Owing to their hard-wearing nitrile coating, these industrial gloves outwear cotton alternatives by a margin of 12 to 1, light leather by 5 to 1 and PVC-coated gloves by 3 to 1
- **Elevated comfort:** Designed with interlock knit lining and available in a range of sizes, these medium-duty nitrile-coated gloves offer hand protection with high levels of comfort
- **Optimized usability:** In addition, they boast an ergonomic design shaped to natural hand contours, making them easy to wear over longer periods
- **Reduced surface defect risks:** As these oil-resistant gloves are free of silicone, they also ensure metal sheets remain clean and prevent contaminant transfer to them before painting

Industries

- Automotive
- Machinery and Equipment
- Metal fabrication

Applications

- Handling metal sheets & panels
- Chassis assembly, body trimming
- Final assembly
- Inspection (picking, checking and marking)
- Cutting glasses, sheets, panels
- Fabricating metal parts, glass sheets
- Assembly & inspection of components

Previously known as: Hylite™

Key Features

- **Nitrile formulation:** Flexibility, oil repellency and abrasion resistance
- **Interlock knit lining and generous sizing:** Enhanced comfort
- **Contoured ergonomic hand shape:** Comfortable to wear for long periods
