

## Thin, yet durable, food processing gloves, offering light chemical protection

- **Reduced risks:** AlphaTec® 37-310 safety gloves' lack of inner cotton flocking reduces lint contamination risks, while their latex-free composition makes them usable for those with Type I allergies
- **Advanced ergonomics:** Their thin, 8 mil/0.2mm palm offers these AlphaTec® gloves heightened dexterity, while an "engineered" fit means they are ideal for use either as an overglove or independently
- **Food handling compliance:** They also boast European food handling certification
- **Specialized defenses:** AlphaTec® 37-310 PPE gloves possess EN 374 Type B chemical protection, guarding against light acids, grease, oils and liquids
- **Added protection:** In addition, these industrial safety gloves have a long cuff, extending to the forearm, for further personal protection

### Industries

- Food Processing
- Janitorial / Sanitation
- Agriculture
- Chemical
- Utilities
- Warehousing

### Applications

- Dairy Processing
- Fruit and Vegetable Processing
- Prepared Meals
- Janitorial use
- Cleaning

### Key Features

- **Unflocked and latex-free:** Reduced risk of contamination and allergens
- **Extra-thin 8 mil/0.2mm palm:** For PPE gloves with advanced dexterity
- **Food handling certification:** Safety gloves ideal for food processing
