

Liquid chemical splash resistant hood providing , flash fire, hot liquids and arc resistance..

AlphaTec® 6667x series coat is made of Nomex® based fabric containing a breathable membrane. It offers flash fire protection as well as exceptional liquid chemical splash protection, while also helping to manage heat stress by allowing body heat to disperse through the fabric. The worker is protected and comfortable throughout a full shift.

- Optional hood for attachment to the collar by means of hook and loop fastenings
- Designed to accommodate a hard hat
- Chin Strap
- Intended for use with 66670 jacket, 66671 coat or 66677 coverall

Industries

- Chemical
- Food Processing
- Mining
- Maintenance
- Metal fabrication

Applications

- Plant disinfection and sanitization
- Chemical Handling
- Repair and maintenance
- Oil Platforms
- Mining
- Metal Plating
- Food Processing
- Sanitation
- Utilities
- Energy
- Water plants
- Transport of hazardous substances
- Pulp and Paper Production

KEY FEATURES & BENEFITS

- Optional hood attaches to the collar by means of hook and loop fastenings and features a chin strap
- Chemical splash fabric provides protection with penetration data for more than 70 chemicals
- FR fabric resists flash fire, arc flash and hot liquids
- Breathable fabric maximizes comfort, reducing the risk of heat stress and increasing productivity
- Durable laminated fabric system is machine washable for longer, cost-effective service life

Performance Standards

ASTM F1671

Product Information

| Product Information | |
|---------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Available Sizes | One Size |
| Color | Blue |
| Country Of Origin | Canada |
| Packaging Overview | Individually Packed |
| Product Material | White Nomex [®] inner with breathable membrane and Blue Nomex [®] outer |
| Product Reference | 66-674 Detachable Hood |
| Standards Overview | <ul style="list-style-type: none">• Tested to ASTM F955-2015 - Standard Test Method for Evaluating Heat Transfer through Materials for Protective Clothing Upon Contact with Molten Substances• ASTM F1671 - Resistance to bloodborne pathogens• EN 1149-5 - Electrostatic properties |
| Seam Type | Stitched and Taped |
| Shelf Life | 5 years |
