

Cut

Medium Duty

Economical solution for medium duty applications requiring very high cut resistance, grip & oil-repellence performance in oily environment

- **Heightened grip:** Featuring a fully NBR-coated seamless liner with a rough palm, EDGE® 48-969 protective gloves offer a highly secure grip in oily environments, while protecting skin from injuries and oil contamination
- **Optimized visibility:** these bright yellow cut-resistant gloves ensure that hands remain highly visible, promoting safety even in low-light or dark conditions
- **Enhanced defenses:** EDGE® 48-969 offers a high level of abrasion resistance and very high cut protection. In addition, the glove provides EN 407 level 1 contact heat protection, making it ideal for workers handling hot equipment, parts and objects.

Industries

- Aerospace
- Automotive
- Glass manufacturing
- Machinery and Equipment
- Metal fabrication
- Transportation
- Oil and gas

Applications

- Machining / Stamping / Cutting
- Grinding
- Assembly of parts
- Maintenance
- Handling of glass sheets, sharp edged objects
- Handling materials with sharp or rough edges
- Handling sharp metal or objects

Key Features

- **NBR coating finish:** High grip in oily environment
- **Optimized visibility:** Bright yellow ensures high visibility
- **Thermal resistance:** Ability to confidently handle hot components
