

Anti-static, yellow chemical protection suit with panoramic visor, compatible with Malina 2F Clean Air PAPR units .

- **Augmented defenses:** The AlphaTec® 3000 PAPR – Model 704 fully encapsulated chemical-resistant coveralls offer excellent personal protection
- **Heightened protection:** The seams of this protective suit, which is compatible with Malina 2F Clean Air PAPR units, are welded and taped, providing an exceptional barrier against liquids and particulates
- **Enhanced safety:** These yellow chemical coveralls include double elasticated cuffs that enable a liquid-tight connection with chemical protective gloves, and attached socks with boot over-flap
- **Optimized ventilation:** These chemical coveralls feature an air-permeable SMS collar that enables proper airflow in the breathing zone, while facilitating the circulation of excess air within the suit

Industries

- Chemical
- Mining
- Oil and gas
- Life Sciences
- Fire and Rescue

Applications

- Contaminated Environments
- Chemical Handling
- Hazmat response
- Emergency Response
- Decontamination

KEY FEATURES & BENEFITS

- **Lightweight Multi-Layer Barrier:** Protection Against Chemical Hazards
- **Welded and taped seams:** Superb barrier to liquids and particulates
- **Double elasticated cuffs:** Liquid-tight connection with chemical gloves
