

38-628Maximum protection from hazardous chemicals

Previously known as: ChemTekTM 38-628

Chemical gloves and mounting device paired to gas-tight/Level A AlphaTec® protective suits

- Optimized protection: Featuring a 0.7mm butyl-viton layer, these AlphaTec[®] 38-628 industrial gloves offer advanced chemical resistance, protecting against aliphatic, halogenated and aromatic hydrocarbons, as well as concentrated mineral acids
- Advanced ergonomics: These hand protection gloves are designed with a naturally curved ergonomic shape, which enhances comfort, ensures dexterity, and makes donning and doffing easier
- Improved comfort: Thanks to their soft feel, AlphaTec[®] 38-628 safety gloves are even more comfortable, facilitating sustained wear

Industries

- Life Sciences
- · Oil and gas
- Chemical

Applications

- Chemical Handling
- Opening and draining pumps valves or lines
- Filling, blending and charging of raw materials
- Equipment repair & maintenance

38-628 Maximum protection from hazardous chemicals
