

Multi Purpose

Light Duty

The cost effective solution for light weight applications combining comfort, dexterity with ESD compatibility.

- The EDGE[®] 48-884 glove is made of a seamless 13 gauge polyester & carbon fiber liner, with polyurethane fingertip coating
- Electrostatic discharge product protection due to presence of carbon fiber
- ESD certified according to EN16350 : 2014
- The coated fingertip also prevents the transfer of perspiration to the electronic part

Industries

- Automotive
- Electronics
- Machinery and Equipment
- Electrical

Applications

- Assembly of dashboard cables and wires
- Assembly and repair work in electronics and telecommunications
- Assembly of electronic components and mother boards
- Handling the compact disks

Key Features

- Very light and comfortable
- EDGE[®] 48-884 is a safety glove with ESD functionality certified to EN 16350:2014, protecting products against electrostatic discharge. In addition, as part of a grounding chain they can be used in explosion hazard zones (ATEX ATmosphères Explosives).

Performance Standards & Regulatory Compliance
