

23-193

Maintain a secure grip when the temperature drops.

Previously known as: WinterMonkeyGrip®23-193

Cold-resistant heavy-duty gloves, with flexible PVC coating to repel water, oil and grease

- Enhanced versatility: ActivArmr® 23-193 safety gloves' PVC coating repels water, oil and grease, while remaining soft and flexible at low temperatures and enhancing abrasion resistance and grip performance
- Added comfort: Foam insulation means these comfortable industrial gloves keep hands warm and dry
- Improved ergonomics: A specially designed wing thumb, along with curved fingers and a soft jersey cotton lining, result in protective gloves with heightened flexibility and dexterity
- Certified cold resistance: These PVC-coated gloves satisfy EN 511-111 contact cold standards, for reliable hand protection in cold conditions

Industries

• Metal fabrication

Applications

- Handling materials with sharp or rough edges
- Fabricating metal parts, glass sheets
- Handling application & cleaning tools
- Production line support & maintenance
- Equipment repair & maintenance
- Assembly and disassembly of equipment

23-193

Maintain a secure grip when the temperature drops.

Previously known as: WinterMonkeyGrip®23-193

Key Features

- Flexible PVC coating: Grip, abrasion resistance and barrier protection
- Foam insulation: For work gloves that keep hands warm and dry
- Curved fingers, wing thumb and jersey lining: Comfort and usability

Performance Standards & Regulatory Compliance

ANSI/ISEA 105-2024

3121B
