

MICRO-TOUCH® Nitrile EP™

Performance Series

Durable glove design with an extended cuff for high-risk protection within healthcare environments

- **Added protection:** This non-sterile glove has an extended (295mm/11.6") cuff which provides added protection over the wrist and forearm in high-risk clinical settings
- **Barrier protection:** Offers effective barrier protection against punctures and a wide range of chemicals, as well as bodily fluids or blood-borne pathogens
- **Reduced allergy risk:** Nitrile material prevents latex Type I allergies
- **Smart packaging:** 200-count packaging reduces waste
- **Specialized protection:** Tested and approved for use with chemotherapy drugs*
- **Secure grip:** These gloves are textured for better grip in wet and dry procedures

*see product packaging for details

Recommended For

- Tested for use with chemotherapy drugs
- Extra protection over the wrist and arm
- Protection from Type I latex allergy in HCW's or patients
- Sustained, high-risk examination procedures
- Environmentally friendly facilities

FEATURED TECHNOLOGIES

MICRO-TOUCH® Everyday, Everywhere Protection

MICRO-TOUCH® premium medical examination gloves are scientifically designed to complement every need of medical professionals. Sophisticated design features include Ansell ergonomic technologies that ensure comfort during extended procedures, wet grip innovations that prevent harmful mishandling, and micro-thin films for maximum sensitivity. Caregivers who are fully prepared and comfortably protected by versatile MICRO-TOUCH styles have the peace of mind to focus on what matters most: the health and protection of themselves and their patients.

MICRO-TOUCH® Nitrile EP™

Performance Series
