

# MICRO-TOUCH® HYDRACARE™

Performance Series

## Latex, powder-free medical exam glove with a skin-moisturizing coating

- **Easy donning:** The inner chlorinated surface guarantees easy donning, even with damp hands
- **Reduced allergy risk:** Extensive leaching phases ensure a very low residual protein content
- **Medical grade protection:** This glove is CE Marked as a Class I Medical Device, ensuring more consistent quality and providing protection for a wide range of applications
- **Secure grip:** The gloves' fully-textured surface provides extra protection for wet or dry grip and against slippage
- **HYDRACARE™ Technology:** The glycerol inner coating actively retains moisture and helps maintain skin suppleness, restoring hydration and elasticity
- **Comfortable fit:** Ansell's natural rubber latex formulation provides excellent elasticity and memory for a secure, comfortable fit

**CAUTION:** This product contains natural rubber latex, which may cause allergic reactions

### Recommended For

- Enhanced grip in wet environments
- Standard, moderate risk examination procedures
- Extra comfort during long, sustained procedures
- Damp donning
- Helping protect skin from drying or cracking

### FEATURED TECHNOLOGIES

**HYDRACARE™**  
Inner Coating Technology

### MICRO-TOUCH® Everyday, Everywhere Protection

MICRO-TOUCH® premium medical examination gloves are scientifically designed to complement every need of medical professionals. Sophisticated design features include Ansell ergonomic technologies that ensure comfort during extended procedures, wet grip innovations that prevent harmful mishandling, and micro-thin films for maximum sensitivity. Caregivers who are fully prepared and comfortably protected by versatile MICRO-TOUCH styles have the peace of mind to focus on what matters most: the health and protection of themselves and their patients.
