Medium Duty

## Heat- and cut-resistant gloves, granting wearers complete hand and wrist protection

- **Advanced protection:** ActivArm<sup>®</sup> 43-113 safety gloves feature Dupont™ Kevlar® outer yarn and can intermittently handle dry hot objects up to 350°C/660°F, resisting radiant, convective and contact heat
- **Specialized defenses:** ActivArm<sup>®</sup> 43-113 flame-resistant gloves do not melt, drip or propagate flames as they self-extinguish, protecting hands, wrists and arms from serious skin injuries
- **Advanced cut resistance:** They also satisfy ANSI A5/EN ISO E cut resistance standards, making them an ideal choice for handling machinery and equipment
- **Heightened comfort:** ActivArm<sup>®</sup> 43-113 protective gloves are cotton-lined, boosting their absorbency and dexterity
- **Enhanced features:** Their long knitwrist cuff also ensures greater forearm and wrist protection

#### Industries

- Machinery and Equipment

#### Applications

- Handling hot glass, bottles and panes
- Handling hot metal castings
- Rubber processing, vulcanizing and calendaring
- Demoulding rubber tyres, belts and profiles
- Removing products from autoclaves

PERSONAL PROTECTIVE GEAR

## 43-113

### Heat and Flame Resistant Glove

Previously known as: MERCURY™43-113

#### Key Features

- Dupont™ Kevlar® outer yarn: Tolerates dry handling up to 350°C/660°F
- Self-extinguishing design: For reliably flame-resistant work gloves
- ANSI A5/EN ISO E cut resistance certification: Superb hand protection

#### Vulcanization Chemical Accelerators

- Natural rubber proteins

Only a very small number of users may be sensitive to this ingredient(s) and hence may develop irritant and/or allergic contact reactions.

#### Performance Standards & Regulatory Compliance
