

Flexible chemical-resistant gloves, suitable for a wide range of applications

- **Advanced protection:** Suited to heavy-duty cleaning applications, these AlphaTec[®] gloves' nitrile compound and 0.425mm thickness ensure strength, chemical resistance and protection against snags, punctures and abrasion
- **Optimized comfort:** AlphaTec[®] 37-695 protective gloves also feature internal cotton flocking, which limits sweat buildup and enhances wearer comfort
- **Improved grip:** Thanks to their reversed lozenge finish, these durable work gloves boast excellent levels of grip in both dry and wet environments
- **Assured flexibility:** Their nitrile composition means they remain flexible and dexterous, for simpler everyday use

Industries

- Automotive
- Automotive Aftermarket
- Food Processing
- Metal fabrication
- Oil and gas
- Chemical

Applications

- Delivery of parts to production line
- Welding
- All food processing applications that have food contact
- Forging operations
- General pumping work
- Handling incoming goods
- Filling, blending and charging of raw materials
- Opening and draining pumps valves or lines
- Loading and unloading of process equipment
- Transferring liquids and solids between vessels and tanks and process equipment
- Supervision of running operation
- Handling outgoing goods: cans, vessels, bulkpack and cartons
- Testing
- Opening furnaces draining pumps valves or lines and crackers BTX process
- Painting or cleaning tools or robots

AlphaTec[®] Solvex[®]

37-695

Excellent chemical protection with a good level of grip, fit and comfort

Previously known as: Solvex[®] 37-695

Key Features

- **0.425mm nitrile compound:** Enhanced strength and chemical resistance
- **Cotton flocking:** Reduced perspiration buildup, for sustained comfort
- **Reversed lozenge finish:** For protective gloves offering better grip

Vulcanization Chemical Accelerators

- Mercaptobenzothiazole
- Zinc Diethyldithiocarbamate

Only a very small number of users may be sensitive to this ingredient(s) and hence may develop irritant and/or allergic contact reactions.
