

## High-dexterity light-duty work gloves, offering superb grip and light chemical resistance

- **Certified ergonomics:** With certification from United States Ergonomics, AlphaTec® 58-128 chemical-resistant gloves feature a fitted shape, reduce hand fatigue and are proven to support musculoskeletal health during repetitive tasks
- **Assured protection:** These industrial gloves' thin nitrile coating provides an effective barrier against oils and irritant fluids, for reliable personal protection suitable for light-duty applications
- **Enhanced grip:** AlphaTec® 58-128 protective gloves also boast an ANSELL GRIP™ Technology coating polymer, which enhances grip when handling wet or oily parts
- **Improved comfort:** As its ergonomic shape conforms to the natural contours of the wearer's hand, it is easy to wear and use

### Industries

- Automotive
- Automotive Aftermarket
- Machinery and Equipment
- Metal fabrication
- Chemical

### Applications

- Body painting including surface inspection
- Applying sealers, touching up
- Press injection molding
- Equipment repair & maintenance
- Assembling and mounting components
- Painting or cleaning tools or robots
- Final assembly
- Metalwork, glass processing
- Assembly & inspection of components
- Warehousing of raw materials
- Testing

#### Key Features

- **Ergonomic certification:** A fitted shape, for good musculoskeletal health
- **Thin nitrile coating:** Protection against oils and irritant fluids
- **ANSELL GRIP™ Technology coating:** Easier handling of wet or oily parts

#### Vulcanization Chemical Accelerators

- Zinc Diethyldithiocarbamate

Only a very small number of users may be sensitive to this ingredient(s) and hence may develop irritant and/or allergic contact reactions.
