## Goatskin leather protectors, for extended high-voltage glove life and enhanced hand safety

- **Reinforced protection:** Composed of premium goatskin leather, ActivArmr® 96-003 protectors guard against moderate cut, puncture and abrasion risks, while ensuring additional personal protection for workers engaged in electrical work, either with or near energized components
- **Improved durability:** These leather protectors are specially designed to prolong electrical insulated gloves' wear life, deemed suitable for Class 1 to 4 gloves of this kind
- **Assured effectiveness:** Satisfying ASTM D120 and EN 60903 standards, ActivArmr® 96-003 leather protectors offer users proven, fully compliant hand protection
- **Heightened dexterity:** Their leather composition also enhances their dexterity, for unencumbered electrical PPE that remains easy to use
