PERSONAL PROTECTIVE GEAR

## Electrical Insulating Gloves Class 00 - RIG0014B

Comfortable electrical protection gloves, combining safety, durability and flexibility

Previously known as: E015B

Electrical

Light Duty

## Durable, form-fitting electrical safety gloves, assuredly protecting wearers\*

- **Improved durability and flexibility:** ActivArm<sup>®</sup> Electrical Insulating Gloves Class 00 - RIG0014B are made of durable, flexible latex, using an eco-conscious dipping process
- **Advanced ergonomics:** These insulated gloves' hand-at-rest design and non-splayed fingers limit hand fatigue
- **Elevated comfort:** Their spacious flared cuff enhances ventilation and makes room for clothing
- **Increased practicality:** These electrical protection gloves' smooth, case-hardened finish makes for easy donning and doffing
- **Specialized defenses:** They are arc flash certified (APC 1 in combination with 96-002 leather protectors) and tolerate a touch voltage maximum of AC 500 V (DC 750 V)
- **Certified protection:** These electrical insulated gloves meet relevant CSA, NFPA and OSHA standards, as well as EN standards for acid, ozone and low temperature resistance\*  
\*Category A, Z and C respectively

ARC FLASH RESISTANT

### Industries

- Automotive
- Electrical
- Construction
- Mining
- Machinery and Equipment

### Applications

- Applications with risk of touch voltage
- Electrical Contractors
- Hybrid engine manufacturing and repair
- Maintenance Repairs and Operations in all industrial environments (MRO)
- Mass Transit Repair and Maintenance
- Power maintenance, repair & transmission
- Telecom repair near electrical wires
