

### Encapsulated chemical protective suit ideal for use with air-fed/supplied systems.

- **Advanced defenses:** The AlphaTec® 4000 AVANT AIRline Ultrasonically Welded & Taped - Model 755 full protective suit has been permeation tested against more than 200 chemicals, including chemical warfare agents
- **Improved protection and vision:** This protective suit features welded and taped seams that provide the highest level of protection against hazardous liquids and particulates, as well as a panoramic design that ensures a good field of vision for the wearer
- **Increased feature:** This full body protection suit comes with a HEPA filter that provides secondary protection from airline contamination, and a SMC silencer to ensure the noise inside the suit is always below 70 dB (even at maximum airflow)
- **Added safety:** In addition to a suit/belt mounted regulator complete with a low flow warning whistle, this protective body suit offers an emergency rip cord that permits rapid doffing of the suit in cases of an emergency
- **Varied options:** It comes with a range of sleeve options as well as attached socks with elasticated boot overflap

## Industries

- Chemical
- Life Sciences
- Mining
- Oil and gas
- Fire and Rescue

## Applications

- Contaminated Environments
- Chemical Handling
- Filling, blending and charging of raw materials
- Transferring liquids and solids
- Opening and draining pumps valves or lines
- Loading and unloading of proces equipment
- Raw material sample collection
- Concentration mixing and palletisation
- Hazmat response
- Assembly and disassembly of large pipes

## KEY FEATURES & BENEFITS

- **200 chemicals permeation tested:** Excellent chemical resistance
- **Welded and taped seams:** Superb liquid and particulate barrier
- **Panoramic visor design:** Ensures a good field of vision
