

## **07-111**Anti-Vibration Glove

Previously known as: VibraGuard®07-111

Vibration

Heavy Duty

# Heavy-duty nitrile safety gloves, minimizing the risks and effects of harsh vibrations

- Improved tactility: ActivArmr® 07-111 work gloves' halffinger design ensures precision handling, enabling wearers to use power tools with ease and deftly handle screws, nails and small parts
- Elevated comfort: These abrasion-resistant gloves' breathable cotton back provides comfort in warm work environments
- Increased protection: Gel foam padding in the thumb, index finger and palm area reduces vibration, protecting hands against shock impacts and potential instances of handarm vibration syndrome (HAVS)
- Optimized durability: Owing to their nitrile coating, ActivArmr<sup>®</sup> 07-111 protective gloves offer greater levels of snag and abrasion resistance
- **Genuine convenience:** These launderable nitrile work gloves are silicone-free, making them suitable for various manufacturing applications and preventing contaminant transfer to metal before painting

### Industries

- Automotive
- Metal fabrication
- Agriculture
- Automotive Aftermarket
- Oil and gas

### **Applications**

- Handling metal sheets & panels
- Metalworking & assembly operations
- · Handling rough machined metal parts
- Handling materials with sharp or rough edges

## 07-111 **Anti-Vibration Glove**

Previously known as: VibraGuard®07-111

## **Key Features**

- Half-finger design: For safety gloves that ensure precision handling
- Breathable cotton back: Greater comfort in warm work environments
- Vibration gel foam padding: Shock and vibration absorption

## Performance Standards & Regulatory Compliance

ANSI/ISEA 105-2024

3221B
