Goatskin leather protectors, for extended highvoltage glove life and enhanced hand safety

- Reinforced protection: Composed of premium goatskin leather, ActivArmr[®] 96-003 protectors guard against moderate cut, puncture and abrasion risks, while ensuring additional personal protection for workers engaged in electrical work, either with or near energized components
- Improved durability: These leather protectors are specially designed to prolong electrical insulated gloves' wear life, deemed suitable for Class 1 to 4 gloves of this kind
- Assured effectiveness: Satisfying ASTM D120 and EN 60903 standards, ActivArmr[®] 96-003 leather protectors offer users proven, fully compliant hand protection
- Heightened dexterity: Their leather composition also enhances their dexterity, for unencumbered electrical PPE that remains easy to use
