

# Electrical Insulating Gloves Class 1 -RIG114Y

Durable, flexible electrical protection gloves, ensuring hand protection with fitted comfort

### Previously known as: E005

Electrical

Medium Duty

# Electrical protection gloves that deliver assured, comfortable protection\*

- Heightened durability and flexibility: ActivArmr<sup>®</sup> Electrical Insulating Gloves Class 1 - RIG114Y are latex-made, via an environmentally friendly dipping process, for truly durable, flexible electrical PPE
- Advanced ergonomics: These insulated rubber gloves' non-splayed fingers and hand-at-rest design minimize hand fatigue
- Elevated comfort: A flared cuff means plentiful room for clothing and ventilation
- Increased practicality: Their smooth finish makes for easy donning and doffing
- Specialized defenses: They are arc flash certified (APC 2 in combination with 96-003 leather protectors), can withstand a touch voltage AC maximum of 7500 V (DC maximum 11250), while also protecting users against acid, ozone and very low temperatures\*
- Certified protection: As electrical PPE, they also satisfy applicable CSA, NFPA and OSHA standards \*Category A, Z and C respectively

### Industries

- Automotive
- Electrical
- Construction
- Machinery and Equipment
- Mining

### **Applications**

- Applications with risk of touch voltage
- Electrical Contractors
- Hybrid engine manufacturing and repair
- Maintenance Repairs and Operations in all industrial environments (MRO)
- Mass Transit Repair and Maintenance
- Power maintenance, repair & transmission
- Telecom repair near electrical wires

# Electrical Insulating Gloves Class 1 -RIG114Y

Durable, flexible electrical protection gloves, ensuring hand protection with fitted comfort

Previously known as: E005

### **Key Features**
