

### Protective trousers offering innovative, multi-layer chemical barrier technology.

- **Increased defenses:** Featuring a lightweight yet robust textile feel, the AlphaTec® 4000 Trousers Ultrasonically Welded & Taped - Model 301 grants superior personal protection, with over 200 chemicals permeation tested, including chemical warfare agents
- **Enhanced protection:** Designed to protect, this protective garment shields against a wide range of organic and inorganic chemicals as well as biological agents
- **Reduced contamination risks:** Owing to its silicone-free design, this chemical protective garment lowers the risk of contamination

## Industries

- Chemical
- Life Sciences
- Mining
- Fire and Rescue
- Oil and gas
- Automotive Aftermarket
- Food Processing

## Applications

- Contaminated Environments
- Chemical Handling
- Filling, blending and charging of raw materials
- Transferring liquids and solids
- Opening and draining pumps valves or lines
- Loading and unloading of process equipment
- Raw material sample collection
- Concentration mixing and palletisation
- Hazmat response
- Assembly and disassembly of equipment

## KEY FEATURES & BENEFITS

- **Excellent chemical resistance:** Protects from more than 200 chemicals
- **Designed to protect:** Shields from chemical and biological hazards
- **Free from silicone:** Reduces the risk of contamination
