

Previously known as: MICROGARD® 2300 STANDARD - Model 103

Medium-duty, lightweight yellow protective suit, granting low-hazard chemical protection.

- **Specialized protection:** The AlphaTec® 2300 STANDARD Bound - Model 103 offers Type 5/6 protection, combining a polyethylene barrier coating with a bi-component nonwoven inner layer to guard against inorganic liquid chemicals, including acids and bases
- **Increased practicality:** It boasts a durable lightweight design, boosting everyday practicality and usability
- **Added security:** This protective body suit's bright yellow tone ensures its visibility, preventing accidents and improving workplace safety
- **Enhanced features:** It also features a respirator-fit hood and a zip flap designed with a self-adhesive tape closure
- **Proven anti-static capabilities:** Satisfying EN 1149-5 anti-static standards, this chemical-protective suit ensures safe, reliable electrical component handling

**CE Category III Type 5/6 protection*

Industries

- Life Sciences
- Machinery and Equipment
- Agriculture
- Food Processing

Applications

- Equipment maintenance and repair
- Equipment repair & maintenance
- Handling structural and body components
- Assembly & inspection of components
- Fibre Glass/Resin Applications/Ceramic Fibres

KEY FEATURES & BENEFITS

- **Protective barrier:** Resists inorganic liquid chemicals
- **Lightweight, durable design:** For robust everyday usability
- **Bright yellow color:** High visibility, for improved workplace safety
