

Previously known as: MICROCHEM® 3000 - Model 406

Durable and comfortable protective footwear, granting a multi-layer chemical barrier.

- **Specialized protection:** The AlphaTec® 3000 STANDARD Overboots Ultrasonically Welded - Model 406 grants a protective multi-layer barrier fabric that is extremely effective against inorganic chemicals and biological hazards
- **Heightened visibility:** This protective footwear is highly visible, thanks to its bright yellow color, which helps improve workplace safety in low-light conditions
- **Lightweight feel and increased durability:** Light and durable by nature, these safety overboots offer a blend of comfort and protection

Industries

- Chemical
- Mining
- Food Processing
- Oil and gas
- Life Sciences
- Automotive Aftermarket
