

GAMMEX® Latex EnLite

S U R G I C A L G L O V E S

Latex powder-free surgical gloves, for reliable hand protection and a comfortable fit

- **Elevated comfort:** GAMMEX® Latex EnLite™ latex surgical gloves are made using unique anatomic formers, ensuring an excellent fit and superb comfort
- **Effortless donning:** Thanks to a chlorination treatment applied to its internal surface, these latex gloves are easy to don
- **Secure hold:** GAMMEX® Latex EnLite™ sterile gloves feature straight cuffs, ensuring a secure hold to the gown
- **Optimal allergy prevention:** An exclusive manufacturing process ensures very low levels of latex proteins and chemical accelerator residues, minimizing the risk of developing latex Type I and chemical Type IV allergies and sensitivities
- **Secure grip:** These gloves' smooth surface, with a micro-textured finish, enable confident instrument handling
- **Chemo-drugs tested:** Tested for safe use of chemo-drugs in accordance with ASTM D6879 requirements*

CAUTION: Safe use of these gloves by latex-sensitized individuals has not been established. This product contains natural rubber latex, which may cause allergic reactions.

*Contact Ansell Customer Service for specific chemotherapy drug permeation times and recommendations

Recommended For

- Brief, low-risk examination procedures
- Extra comfort during long, sustained procedures
- Sterile procedures in the O.R.
- Use as an outer glove when double gloving

FEATURED TECHNOLOGIES

GAMMEX® Innovation that Protects

Driven by innovation, GAMMEX® surgical gloves are engineered to respond to the evolving user needs of the surgical community. Featuring unique formulations and cutting-edge technologies, ergonomic comfort and superior protection, healthcare workers around the world entrust their hands to ours.

GAMMEX[®] Latex EnLite

SURGICAL GLOVES
