

GAMMEX[®] Latex Standard

S U R G I C A L G L O V E S

Latex, powder-free surgical gloves, featuring a unique external surface treatment for secure grip

- **Enhanced grip:** GAMMEX[®] Latex Standard surgical gloves' unique micro-textured external surface treatment offers safe and reliable grip of surgical instruments, making them ideal for use as an outer glove when double gloving
- **Certified for ergonomic comfort:** The soft, malleable formulation and optimal thickness of these latex surgical gloves ensure excellent tactile sensitivity and dexterity, with proven ergonomic comfort and performance, as certified by United States Ergonomics
- **Proprietary donning aid technology:** A unique polymer coating applied to the inside of the glove ensures they are easy to don and doff under dry or damp hand conditions
- **Safe to use with chemo drugs:** Tested in accordance with ASTM D6978, these powder-free latex gloves are safe to use across a wide range of chemotherapy drugs*

CAUTION: Safe use of these gloves by latex-sensitized individuals has not been established. This product contains natural rubber latex, which may cause allergic reactions.

*Contact Ansell Customer Service for specific chemotherapy drug permeation times and recommendations

Recommended For

- Extra comfort during long, sustained procedures
- Sterile procedures in the O.R.
- Use as an outer glove when double gloving

FEATURED TECHNOLOGIES

GAMMEX[®] Innovation that Protects
