

# GAMMEX<sup>®</sup> Latex Textured

S U R G I C A L   G L O V E S

## Latex, powder-free surgical gloves ensuring secure instrument handling and grip

- **Enhanced grip:** The micro-textured finish and special external surface treatment of these sterile surgical gloves deliver confident handling of surgical instruments under dry or damp conditions
- **Optimized tactile sensitivity:** Ideal glove thickness ensures the tactile sensitivity glove wearers need without compromising barrier protection
- **Effortless donning and doffing:** A unique internal coating made possible by Ansell's donning aid technology enables easy donning and doffing under dry or damp hand conditions, be it the first don or during intra-operative procedures
- **Chemo-tested:** Tested to ASTM D6978, these sterile latex gloves are safe to use with a wide range of chemotherapy drugs\*

**CAUTION:** Safe use of these gloves by latex-sensitized individuals has not been established. This product contains natural rubber latex, which may cause allergic reactions.

\*Contact Ansell Customer Service for specific chemotherapy drug permeation times and recommendations

### Recommended For

- Sterile procedures in the O.R.
- Enhanced grip in wet environments
- Dry and damp hand donning
- Extra comfort during long, sustained procedures
- Use as an outer glove when double gloving

### FEATURED TECHNOLOGIES

## GAMMEX<sup>®</sup> Innovation that Protects

Driven by innovation, GAMMEX<sup>®</sup> surgical gloves are engineered to respond to the evolving user needs of the surgical community. Featuring unique formulations and cutting-edge technologies, ergonomic comfort and superior protection, healthcare workers around the world entrust their hands to ours.
