# GAMMEX<sup>®</sup> Latex EnLite

#### SURGICAL GLOVES

### Latex powder-free surgical gloves, for reliable hand protection and a comfortable fit

- Elevated comfort: GAMMEX<sup>®</sup> Latex EnLite<sup>™</sup> latex surgical gloves are made using unique anatomic formers, ensuring an excellent fit and superb comfort
- Effortless donning: Thanks to a chlorination treatment applied to its internal surface, these latex gloves are easy to don
- Secure hold: GAMMEX<sup>®</sup> Latex EnLite<sup>™</sup> sterile gloves feature straight cuffs, ensuring a secure hold to the gown
- Optimal allergy prevention: An exclusive manufacturing process ensures very low levels of latex proteins and chemical accelerator residues, minimizing the risk of developing latex Type I and chemical Type IV allergies and sensitivities
- **Secure grip:** These gloves' smooth surface, with a micro-textured finish, enable confident instrument handling
- Chemo-drugs tested: Tested for safe use of chemo-drugs in accordance with ASTM D6879 requirements\*

CAUTION: Safe use of these gloves by latex-sensitized individuals has not been established. This product contains natural rubber latex, which may cause allergic reactions.

\*Contact Ansell Customer Service for specific chemotherapy drug permeation times and recommendations

#### **Recommended For**

- Brief, low-risk examination procedures
- Extra comfort during long, sustained procedures
- Sterile procedures in the O.R.
- Use as an outer glove when double gloving

### FEATURED TECHNOLOGIES

A.R.T

#### GAMMEX<sup>®</sup> Innovation that Protects

Driven by innovation, GAMMEX<sup>®</sup> surgical gloves are engineered to respond to the evolving user needs of the surgical community. Featuring unique formulations and cutting-edge technologies, ergonomic comfort and superior protection, healthcare workers around the world entrust their hands to ours.
