

MICRO-TOUCH® Royal Blue Nitrile

Standard Thin

Gloves designed to provide reliable protection and tactility

- Thin, durable material: Designed with a thin, yet durable nitrile formulation for dependable protection and tactility for healthcare professionals
- Color contrast design: The unique royal blue color provides greater contrast and visibility than standard light blue nitrile gloves
- Specialized protection: Tested and approved for use with chemotherapy drugs*

Recommended For

- Protection from Type I latex allergy in HCW's or patients
- Standard patient examinations
- Tested for use with chemotherapy drugs

MICRO-TOUCH® Everyday, Everywhere Protection

MICRO-TOUCH® premium medical examination gloves are scientifically designed to complement every need of medical professionals. Sophisticated design features include Ansell ergonomic technologies that ensure comfort during extended procedures, wet grip innovations that prevent harmful mishandling, and micro-thin films for maximum sensitivity. Caregivers who are fully prepared and comfortably protected by versatile MICRO-TOUCH styles have the peace of mind to focus on what matters most: the health and protection of themselves and their patients.
