

# 39-124

Strong mechanical performance and good chemical protection in a wide range of applications

Previously known as: Sol-KnitTM 39-124

# Reinforced nitrile gloves, combining comfort with superb mechanical and chemical protection

- Heightened durability and protection:
  Versatile by design, AlphaTec<sup>®</sup> 39-124 nitrile coated gloves combine durability, mechanical
  protection and chemical resistance, while ensuring
  superb dexterity and wet and dry grip
- Advanced ergonomics: These flexible work gloves are longer than the AlphaTec<sup>®</sup> 39-122 model, featuring a natural shape with curved, preflexed fingers and winged thumbs, for lesser hand fatigue and greater comfort
- Food handling compliance: AlphaTec<sup>®</sup> 39-124 food safety gloves comply with FDA food handling requirements, making them suitable for various food processing and service applications

### **Industries**

- Automotive Aftermarket
- Metal fabrication

### **Applications**

- Oil, fluids and filter change
- Handling materials with sharp or rough edges
- Applying finish to materials, products
- Adjusting panels parts components
- Production line support & maintenance
- Equipment repair & maintenance
- Assembly and disassembly of equipment

# 39-124

Strong mechanical performance and good chemical protection in a wide range of applications

Previously known as: Sol-KnitTM 39-124

## **Key Features**

- Nitrile coating: For highly durable abrasion-resistant gloves
- Ergonomic design: High-dexterity work gloves ideal for light-duty tasks
- FDA approval: Compliant with relevant food handling requirements

### **Performance Standards**

ANSI/ISEA 105-2024
