Apphatec[®]

4000 AVANT AIRline -Model 755

Encapsulated chemical protective suits for use with air-fed/supplied systems

Encapsulated chemical protective suit ideal for use with air-fed/supplied systems.

- Advanced defenses: The AlphaTec[®] 4000 AVANT AIRline Ultrasonically Welded & Taped - Model 755 full protective suit has been permeation tested against more than 200 chemicals, including chemical warfare agents
- Improved protection and vision: This protective suit features welded and taped seams that provide the highest level of protection against hazardous liquids and particulates, as well as a panoramic design that ensures a good field of vision for the wearer
- Increased feature: This full body protection suit comes with a HEPA filter that provides secondary protection from airline contamination, and a SMC silencer to ensure the noise inside the suit is always below 70 dB (even at maximum airflow)
- Added safety: In addition to a suit/belt mounted regulator complete with a low flow warning whistle, this protective body suit offers an emergency rip cord that permits rapid doffing of the suit in cases of an emergency
- Varied options: It comes with a range of sleeve options as well as attached socks with elasticated boot overflap

Industries

- Chemical
- Life Sciences •
- Mining •
- Oil and gas •
- Fire and Rescue

Applications

- Contaminated Environments
- Chemical Handling •
- Filling, blending and charging of raw materials
- Transferring liquids and solids
- Opening and draining pumps valves or lines
