

Previously known as: MICROCHEM[®] 4000 Cape Hood - Model 507

Protective cape hood, designed with innovative multi-layer chemical barrier technology.

- **Heightened defenses:** AlphaTec[®] 4000 Cape Hood Ultrasonically Welded - Model 507 delivers exceptional protection, having over 200 chemicals permeation tested, including chemical warfare agents
- **Enhanced protection:** Designed to protect, this protective garment is composed of a multi-layer barrier fabric, which offers a lightweight yet robust textile feel while ensuring chemical resistance
- **Reduced contamination risks:** As it is free from silicone, these green chemical protective garments present a lower risk of contamination, resulting in optimal personal protection

Industries

- Chemical
- Life Sciences
- Mining
- Fire and Rescue
- Oil and gas
- Automotive Aftermarket
- Food Processing

Applications

- Contaminated Environments
- Chemical Handling
- Filling, blending and charging of raw materials
- Transferring liquids and solids
- Opening and draining pumps valves or lines
- Loading and unloading of process equipment
- Raw material sample collection
- Concentration mixing and palletisation
- Hazmat response
- Assembly and disassembly of equipment

KEY FEATURES & BENEFITS

- **Exceptional protection:** Over 200 chemicals permeation tested
- **Designed to protect:** Made of robust multi-layer barrier fabric
- **Silicone-free:** Reduced contamination risks
