

Medium-duty natural rubber gloves, offering dexterous protection ideal for food processing applications

- **Enhanced flexibility and durability:** AlphaTec® 88-394 safety gloves are made from natural latex rubber, which affords elasticity and tensile strength, making them resistant to snags, punctures and abrasion
- **Improved dexterity:** Thanks to their 0.52mm/21 mil thickness, these protective gloves are particularly flexible and dexterous, for simple, easy everyday use
- **Reduced allergy risks:** AlphaTec® 88-394 work gloves undergo a cleansing chlorination treatment, causing fewer allergy risks in wearers as a result
- **Added grip:** Designed with a fish scale surface pattern, they offer excellent grip in wet and dry conditions
- **Food handling compliance:** Satisfying relevant FDA and EU food safety requirements (including 21 CFR 177.2600), AlphaTec® 88-394 work gloves make for ideal food handling gloves for various food processing applications

Industries

- Food Processing
- Chemical
- Agriculture
- Janitorial / Sanitation

Applications

- Fruit and Vegetable Processing
- All food processing applications that have food contact
- Janitorial use

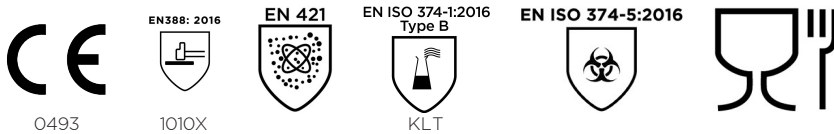

Key Features

- **Natural latex rubber:** Abrasion resistance, elasticity and tensile strength
- **0.52mm/21 mil thickness:** Enhanced dexterity and flexibility
- **Chlorination treatment:** For latex gloves that present fewer allergy risks
- **FDA and EU food handling compliance:** Ideal for use as food safety gloves
