

Versatile heavy-duty nitrile gloves, combining strength, durability and chemical resistance

- **Enhanced durability and chemical resistance:** AlphaTec[®] Solvex[®] 37-165 industrial gloves are made from a high-performance nitrile compound, offering robust resistance to chemicals, snags, punctures and abrasion
- **Reduced contamination risks:** As these flexible nitrile gloves have no inner cotton flocking, lint contamination risks are reduced, making them suitable for production areas sensitive to the introduction of external impurities
- **Heightened flexibility and comfort:** Their unique nitrile formulation also ensures flexibility and dexterity, without compromising comfort
- **Decreased indirect costs:** Thanks to their smooth sandpatch finish, these reusable AlphaTec[®] gloves lead to fewer fragile part rejections and fewer indirect costs as a result
- **Genuine versatility:** Complying with relevant FDA food handling requirements (21 CFR 177.2600), they also make for excellent food safety gloves, but are also suited to heavy-duty cleaning applications

Industries

- Automotive
- Machinery and Equipment
- Chemical
- Food Processing
- Utilities

Applications

- Handling rough machined metal parts
- Equipment repair & maintenance
- Painting or cleaning tools or robots
- Changing tools and dies
- Handling incoming goods
- Filling, blending and charging of raw materials
- Opening and draining pumps valves or lines
- Loading and unloading of process equipment
- Transferring liquids and solids between vessels and tanks and process equipment
- Supervision of running operation
- Handling outgoing goods: cans, vessels, bulkpack and cartons
- Testing

AlphaTec® Solvex®

37-165

Excellent chemical protection with a good level of grip, fit and comfort

Previously known as: Solvex® 37-165

Key Features

- **High-performance nitrile compound:** Durability and chemical resistance
- **No inner cotton flocking:** Hand protection with fewer contamination risks
- **Sandpatch finish:** Fewer rejects of fragile parts, lower indirect costs
