

## Robust neoprene work gloves, featuring a double-insulating liner resistant to extreme temperatures

- **Specialized protection:** AlphaTec® 19-024 neoprene gloves' soft double-insulating thermal liner offers advanced protection from thermal risks and hazards, including intermittent heat contact up to 180°C/356°F
- **Advanced defenses:** Unfazed by detergents and cleaning solutions, these industrial gloves' neoprene coating grants superb mechanical protection and heightened resistance to various chemicals, oils and greases
- **Enhanced flexibility and grip:** In addition, they are highly flexible by design and offer wearers excellent grip, for more confident handling and assured dexterity

### Industries

- Machinery and Equipment
- Metal fabrication
- Chemical
- Automotive Aftermarket

### Applications

- Press work
- Handling materials with sharp or rough edges
- Production line support & maintenance
- Charging and blending raw materials
- Unexpected leakages spills or other releases

# AlphaTec®

ADVANCED CHEMICAL PROTECTION

## 19-024

Chemical and heat resistant gloves,  
Neoprene coated with thermal liner

Previously known as: Scorpio™ 19-024

### Key Features

- **Double-insulating thermal liner:** Resistance to both hot and cold\*
- **High-grade neoprene coating:** Advanced mechanical and chemical resistance
- **Flexible, grip-enhancing design:** Maneuverability and confident handling

\*protection from intermittent contact with hot surfaces up to 180°C/356°F
