

2500 Overboots - Model 406

Durable and breathable microporous laminate technology

Previously known as: MICROGARD® 2500 Overboots - Model 406

Durable and breathable safety overboots designed with microporous laminate technology.

- Certified performance: AlphaTec[®] 2500 STANDARD Overboots Bound - Model 406 is designed with fabric that satisfies EN 14126 standards and offer ultrasonically welded seams, providing superior personal protection from biological agents penetration of blood, bodily fluids and bloodborne pathogens
- Advanced defenses: In addition to affording chemical resistance, these safety overboots also grant excellent mechanical strength with superb liquid and particulate protection, thanks to their unique, microporous polypropylene laminate fabric
- Reduced contamination risks: Composed of low-lint material, these protective overboots do not pose any risk of contamination and are suitable for use in critical areas

Industries

- Life Sciences
- Industrial
- Chemical
- Nuclear
- Law Enforcement

Applications

- Transferring liquids and solids
- Spill or leakage cleanup
- Maintenance
- Unexpected leakages spills or other releases
- Plant disinfection and sanitization
- Emergency Response
- Contaminated Environments

KEY FEATURES & BENEFITS

- EN-certified protection from biohazards: Ideal safety footwear
- **Unique material:** For durable, chemical and biological protection
- Low linting: Enhanced product protection in critical areas
