

48-500

A cost effective solution for heavy handling

Oil

il Hea

Heavy-duty safety gloves, delivering good protection against oils, liquids and abrasion

- Guaranteed durability: Fully coated in nitrile, EDGE[®] 48-500 cut and sewn heavy-duty gloves offer a good level of resistance to abrasive materials and hazards for handling heavy-duty tasks
- Reinforced protection: Stronger and more flexible than PVC, these nitrile gloves provide a good barrier to oils, greases and liquids, and do not degrade like leather or latex
- Cost-effective: EDGE[®] 48-500 protective gloves are an economical choice for heavy-duty tasks, protecting workers from workplace risks and enabling them to perform their tasks more effectively
- Food handling compliance: As these hand protection gloves are composed of FDA-approved materials, they are safe for food contact and packaging

Industries

- Automotive
- Machinery and Equipment
- Metal fabrication

Applications

- Cold plastic moldings
- Heavy-duty cables
- Rough casting and cores
- Steel bars, sheet metals, cans and other metal products
- Street cleaning and refuse collection

48-500

A cost effective solution for heavy handling

Key Features

- Full nitrile coating: For long-lasting and durable work gloves
- Oil and liquid repellence: For assured skin protection and comfort
- Cotton liner: Combining comfort, quality and affordability

Performance Standards & Regulatory Compliance
