

Previously known as: ChemTek™ 38-514

Our thinnest butyl gloves, delivering superior chemical resistance, dexterity and comfort

- **Advanced defenses:** AlphaTec® 38-514 butyl gloves offer superior protection against highly aggressive chemicals, including aldehydes, ketones, esters and concentrated mineral acids
- **Reduced allergy risks:** As they are free from latex proteins, these hand protection gloves present no risk to wearers with latex allergies
- **Improved ergonomics:** Designed for comfort, AlphaTec® 38-514 industrial gloves feature a naturally curved shape and a soft feel, protecting hands while facilitating donning and doffing
- **Enhanced flexibility:** Their soft butyl formulation also enhances their flexibility and dexterity
- **Strengthened grip:** In addition, these butyl gloves feature a rough finish around the hand section, enhancing grip and ensuring safer handling

Industries

- Automotive
- Life Sciences
- Chemical

Applications

- Equipment repair & maintenance
- Loading and unloading of process equipment
- Handling incoming goods
- Filling, blending and charging of raw materials
- Transferring liquids and solids
- Opening and draining pumps valves or lines
- Transferring liquids and solids between vessels and tanks and process equipment
- Supervision of running operation
- Charging and blending raw materials
- Opening furnaces draining pumps valves or lines and crackers BTX process
- Cleaning furnaces, distillation pumps, valves or lines and crackers BTX process
- Unexpected leakages spills or other releases

Previously known as: ChemTek™ 38-514

Key Features

- **Butyl polymer:** Resistance against the most aggressive chemicals*
- **Latex-free formulation:** No risk of latex-related allergic reactions
- **Ergonomic design and soft feel:** Form-fitting comfort and protection

*including aldehydes, ketones, esters and concentrated mineral acids

- Product tested to and confirms to the requirements of EN 16350. Inclusion of EN16350 into product certification still pending

Vulcanization Chemical Accelerators

- 2-Mercaptobenzothiazole disulfide
- Dipentamethylene thriuram disulfide
- Tetramethylthiuram disulfide

Only a very small number of users may be sensitive to this ingredient(s) and hence may develop irritant and/or allergic contact reactions.
