

CFR - Model 103

Flame retardant multi-hazard chemical barrier, Type 3/4/5 protection

Previously known as: MICROCHEM® CFR - Model 103

Protective suit with flame retardant fabric, providing a multi-hazard chemical barrier.

- **Heightened defenses:** AlphaTec® CFR Stitched and Taped - Model 103 chemical coveralls offer multi-hazard protection from chemical sprays without compromising wearer safety in the event of a flash fire
- **Advanced protection:** To reinforce protection, this hazmat suit is made of flame retardant-treated fabric with PVC barrier film protection
- **Enhanced safety:** In addition, this full-body protection suit guards against pressurized liquid spray to EN Type 3 and 4, and particulates to EN Type 5
- **Improved ergonomics:** Owing to its optimized fit, this protective outer garment improves wearers' comfort and safety
- **Optimized visibility:** Worker safety is heightened by this chemical-resistant coveralls' highly visible bright red color

Industries

- Oil and gas
- Chemical
- Fire and Rescue

Applications

- Contaminated Environments
- Chemical Handling
- Filling, blending and charging of raw materials
- Transferring liquids and solids
- Opening and draining pumps valves or lines
- Loading and unloading of proces equipment
- Raw material sample collection
- Concentration mixing and palletisation
- Hazmat response
- Assembly and disassembly of large pipes

KEY FEATURES & BENEFITS

- **Chemical spray protection:** Enhanced personal protection in flash fires*
- **Flame retardant-treated fabric:** Reduced risk of burns
- **Pressurized liquid spray protection:** Robust chemical protective suit

**Should never be worn in isolation for flame retardant protection, always wear over the top of garments that achieve EN ISO14116 Index 2 or above*
