

Chemical coveralls offering superior protection, durability and breathability.

- **Heightened defenses:** AlphaTec® 2500 PLUS Stitched & Taped - Model 111 chemical-resistant coveralls feature excellent protection from biological agents in line with EN 14126 and ASTM F1671 standards
- **Specialized protection:** This protective suit has type 3-B liquid-tight certification, thanks to its stitched and taped seams, ensuring a stronger and more effective liquid and particle barrier
- **Reduced risks:** Owing to its durable, microporous polypropylene laminate, this protective outer garment also affords breathability, protecting workers from heat stress
- **Increased features:** In addition, this anti-static suit boasts ultra-low linting to reduce the risk of cross contamination in critical areas, and has been tested according to EN 1149-5 standards

Industries

- Life Sciences
- Chemical
- Industrial
- Law Enforcement
- Nuclear

Applications

- Transferring liquids and solids
- Unexpected leakages spills or other releases
- Plant disinfection and sanitization
- Emergency Response
- Spill or leakage cleanup
- Maintenance
- Contaminated Environments

KEY FEATURES & BENEFITS

- **EN 14126 and ASTM F1671 compliance:** Superb protection from biohazards
- **Type 3-B liquid-tight certified:** Safer handling of hazardous liquids
- **Breathable fabric:** Air and water vapor permeable, lowered heat stress

Product Information

Product Information	
Available Sizes	S, M, L, XL, 2XL, 3XL, 4XL, 5XL
Color	White
Country Of Origin	China
Packaging Overview	Individually Packed
Product Material	Microporous Polypropylene Laminate non-woven
Product Reference	2500 PLUS - Model 111
Standards Overview	CE CATEGORY III (Type 3-B, Type 4-B, Type 5-B, Type 6-B, EN 1073-2, EN 14126, EN 1149-5)
Seam Type	Stitched and Taped
Shelf Life	5 years
