

## 38-001

Excellent chemical protection and degradation resistance

# Delivering high level of comfort and chemical protection

- Advanced defenses: AlphaTec<sup>®</sup> 38-001's new water based butyl formulation offers superior protection against highly aggressive chemicals, including aldehydes, ketones, solvent esters and concentrated mineral acids
- Improved ergonomics: Designed for comfort, AlphaTec<sup>®</sup> 38-001 industrial gloves feature a unique butyl formulation to facilitate a soft feel, protecting hands while facilitating donning and doffing
- Enhanced flexibility: Ultra soft water based butyl formulation maximizes flexibility and dexterity
- Strengthened grip: Features a raised diamond pattern, enhancing grip and ensuring safer handling

#### **Industries**

- Automotive
- Life Sciences
- Chemical

#### **Applications**

- Equipment repair & maintenance
- · Loading and unloading of proces equipment
- Handling incoming goods
- Filling, blending and charging of raw materials
- Transferring liquids and solids
- Opening and draining pumps valves or lines
- Transferring liquids and solids between vessels and tanks and process equipment
- Supervision of running operation
- Charging and blending raw materials
- Opening furnaces draining pumps valves or lines and crackers BTX process
- Unexpected leakages spills or other releases

## 38-001

## Excellent chemical protection and degradation resistance

## **Key Features**

Delivers high levels of protection against Ketones and Solvents with unparalleled levels of comfort and flexibility

- Improved water based butyl delivering a high level of chemical protection
- · Raised diamond grip pattern for enhanced grip in wet and dry
- Unprecedented levels of dexterity and tactility in a butyl glove
- Extended length for forearm protection

### **Performance Standards**
