

Encapsulated protective suit suitable for air-fed/supplied systems.

- **Specialized protection:** The AlphaTec 3000 AVANT2 AIRline Ultrasonically Welded & Taped - Model 757 chemical protective suit offer excellent personal protection
- **Genuine versatility:** This chemical protective suit's HEPA filter offers secondary protection from airline contamination and a SMC silencer maintains the noise within a suit below 70 dB (even at maximum airflow)
- **Considered aesthetics:** In addition, this protective suit has attached socks with an elasticated boot overflap and is designed to be worn inside chemical protective boots with the leg overflap worn outside to reduce the potential for chemical ingress
- **Reduced risks:** The emergency ripcord feature of this full protective suit permits quick doffing of the suit in cases of emergency or undue distress to the wearer

Industries

- Life Sciences
- Chemical
- Food Processing
- Industrial
- Law Enforcement

Applications

- Opening and draining pumps valves or lines
- Filling, blending and charging of raw materials
- Contaminated Environments
- Chemical Handling
- Transferring liquids and solids
- Raw material sample collection
- Concentration mixing and palletisation
- Hazmat response
- Assembly and disassembly of large pipes
- Loading and unloading of process equipment

KEY FEATURES & BENEFITS

- **Lightweight Multi-Layer Barrier:** Protection Against Chemical Hazards
- **HEPA filter:** Maintains noise in the suit below 70 dB
- **Elasticated boot overflap:** Reduces the potential for chemical ingress
