

## Black heavy-duty neoprene apron, combining chemical, oil, grease, puncture, and abrasion resistance

- **Specialized protection:** The AlphaTec™ 56-402 protective apron is made with 16-17 mil neoprene, with a sewn edge finish, blending durability and flexibility and resisting chemical splashes, oils, grease, punctures, and abrasion. Additionally, EN 407 Level 1 contact heat protection indicates that the material can withstand a contact temperature of 100°C/212°F for a threshold time of at least 15 seconds without the inside temperature rising more than 10°C/50°F.
- **Enhanced defenses:** With nylon reinforcement, this neoprene apron delivers added protection and tear resistance, for enhanced personal protection
- **Optimized fit:** Thanks to its sealed grommets and two-piece 48-inch poly ties, this durable apron also ensures a comfortable, adjustable fit, free from potential tear-outs, for a more consistent wearer experience

### Industries

- Food Processing
- Life Sciences

### Applications

- Packing of fillets and ground meat
- Canning
- Bottling
- Storing and transportation
- Equipment maintenance and repair
- Plant disinfection and sanitization
- Transferring liquids

### PRODUCT INFORMATION

- ◆ 16-17 mil sewn-edge neoprene: Resists chemicals, oils, punctures, and abrasion
- ◆ Nylon reinforcement: For a superb balance of comfort and personal protection
- ◆ Sealed grommets and two-piece 48-inch poly ties: Adjustable, consistent fit
