

Long-cuff natural rubber gloves, offering heavy-duty chemical and mechanical protection

- **Heightened protection:** With a tear-resistant 1.5mm/59 mil-thick external surface, AlphaTec® 87-108 heavy-duty gloves grant wearers heightened chemical protection, particularly against water-based hazards
- **Enhanced features:** These protective gloves' long beaded cuff enhances wearer safety and facilitates donning, with a maximum glove length of 610mm/23" ensuring additional forearm and wrist protection
- **Improved cleanliness:** Chlorination treatment makes these gloves harder and cleanses their surface
- **Increased flexibility:** Their natural latex rubber formulation means these industrial gloves maintain flexibility and elasticity, despite their thickness
- **Assured quality:** In addition, they achieve an AQL of 0.65

Industries
