

48-939 Medium duty cut protection industrial glove

Economical solution for medium duty applications requiring high cut resistance, grip & oil-repellence performance in oily environment

- Heightened grip: Featuring a fully NBR-coated seamless liner with a rough palm, EDGE[®] 48-939 protective gloves offer a highly secure grip in oily environments, while protecting skin from injuries and oil contamination
- Gauntlet design: EDGE[®] 48-939 hand protection gloves' gauntlet extends oil repellent area and makes donning and doffing easy.
- Enhanced defenses: EDGE[®] 48-939 offers a high level of abrasion resistance and cut protection. In addition, the glove provides EN 407 level 1 contact heat protection, making it ideal for workers handling hot equipment, parts and objects.

Industries

- Aerospace
- Automotive
- Glass manufacturing
- Machinery and Equipment
- Metal fabrication
- Transportation
- Oil and gas

Applications

- Machining / Stamping / Cutting
- Grinding
- Assembly of parts
- Maintenance
- Handling of glass sheets, sharpedged objects
- Handling materials with sharp or rough edges
- Handling sharp metal or objects

Key Features

- NBR coating finish: High grip in oily environment
- Gauntlet design: more oil repellent area and easy donning & doffing
- Thermal resistance: Ability to confidently handle hot components

Performance Standards & Regulatory Compliance
