Touchscreen-compatible TPR and synthetic leather impact gloves, for comfort and usability

Impact Abrasion Protection Chemical Protection Cut Ergonomic Protection Vibration

# Touchscreen-compatible TPR impact gloves with synthetic leather, for comfort and usability

- Specialized protection: RINGERS® R161 impact gloves are developed with a patented flexibleknuckle TPR (thermoplastic rubber) design using F3 Technology™, for assured hand safety, dexterity and comfort
- Improved durability and grip: Their synthetic leather palm enhances grip performance and glove life, while a wraparound index finger offers resistance against wear and tear
- Enhanced features: These RINGERS® gloves' increased visibility external surface improves workplace safety, while touchscreen-compatible thumb tips, index and middle fingers make glove removal less frequent
- Heightened defenses: They feature a reinforced thumb, index, and middle finger, as well as a hook and loop rubber pull tab cuff for a secure fit, for safer impact protection gloves overall

### Industries

- Manufacturing
- Minina
